

# README

## Steps to be followed to run program

- make

To run Selective Repeat :

- ./senderSR -s <reciever\_ip> -p <reciever\_port> -L <packet\_length> -R <generation\_rate> -N <max\_packets> -W <window\_size> -B <buffer\_size> -n <seq\_num\_field>
- ./recieverSR -p <reciever\_port> -N <max\_packets> -n <seq\_num\_field> -W <window\_size> -B <buffer\_size> -e <random\_drop probab>

To run GobackN :

- ./recieverGBN -p <reciever\_port> -n <max\_packets> -e <random\_drop probab>
- ./senderGBN -s <reciever\_ip> -p <reciever\_port> -l <packet\_length> -r <generation\_rate> -n <max\_packets> -w <window\_size> -b <buffer\_size>
